Subject: Application – Full-stack Developer (work-study)

Dear Sir or Madam,

I am currently looking for a work-study position for my 2025/2026 Bachelor's degree in web development, and I would like to apply for a **full-stack developer** role within your organisation.

Passionate about development, and particularly about the **PHP / Symfony** ecosystem, I have had the opportunity to take part in several real-world projects, notably the **migration of websites from a custom PHP core to Symfony** in the payment collection sector. These experiences have strengthened my skills in the **design, development and optimisation of web applications**, while following best practices and meeting business needs.

Autonomous, rigorous and curious, I adapt easily to new technical and human environments. Joining your team would be an opportunity for me to put my skills to work on your projects while continuing to learn in a stimulating professional environment.

I would be glad to meet you for an interview to discuss how I could contribute to your projects and goals.

Kind regards,

Nicolas CATALUNA
